TECHNOLOGY CENTER R3700

S I R:

Applicants resubmitted a Response to the Final Rejection dated August 28, 2003, and an Information Disclosure Statement with references and Form 1449, on February 23, 2004 because, after numerous attempts to contact the Examiner, the Examiner finally informed the undersigned counsel for the Applicants on February 18, 2004, that these papers were not present in the Patent and Trademark Office file.

After repeated additional attempts to contact the Examiner, the Examiner finally informed the undersigned counsel for the Applicants that the resubmission had been incorrectly docketed in the Patent and Trademark Office, and the Examiner suggested again submitting the Resubmission, together with a copy of the postcard indicating the original date of receipt of the Resubmission at the Patent and Trademark Office. Accordingly, a complete copy of the Resubmission is submitted herewith, together with a copy of the stamped postcard indicating receipt thereof on February 23, 2004 at the Patent and Trademark Office.

Early action on this application is therefore respectfully requested.

Submitted by,

Steven H. Noll (Reg. 28,982)

S I R:

By Certificate Of Mailing dated November 25, 2003, Applicants submitted a Response to the Final Rejection dated August 28, 2003, and an Information Disclosure Statement with references and Form 1449. A copy of the stamped return postcard indicating receipt of those documents at the Patent and Trademark Office on November 28, 2003, and a copy of the cancelled check that accompanied the filing of the Information Disclosure Statement, proving processing of that check by the Patent and Trademark Office, are attached hereto as proof of receipt of those originally filed documents at the Patent and Trademark Office.

After several follow-up telephone calls to the Examiner subsequent to the filing of these papers, with no action from the Examiner having been received, the Examiner informed the undersigned counsel for the Applicants on February 18, 2004 that these papers were not present in the Patent and Trademark Office file.

Accordingly, copies of the above documents are being resubmitted, together with the aforementioned proof of receipt of the original documents at the Patent and Trademark Office. Immediate consideration thereof is respectfully requested, since the end of the six-month period for response is approaching.

S I R:

Applicants and their counsel have carefully reviewed the final rejection dated August 29, 2003, but believe the claims in their present form are patentable over the teachings of the reference relied upon by the Examiner. Reconsideration of the application in view of the following arguments in support of patentability is therefore respectfully requested.

**REMARKS**

In the Office Action dated August 29, 2003, claims 1-7 were rejected under 35 U.S.C. §102(b) as being anticipated by United States Patent No. 5,453,951. This rejection was discussed in an interview courteously afforded the undersigned counsel for the Applicants on November 20, 2003, at which the Examiner's supervisor also was present. In view of the arguments discussed at the interview, the Examiner and his supervisor stated that it appeared that continued reliance on the '951 patent as a basis for anticipating claims 1-7 would not be justified, however, the Examiner stated he would reserve making a final judgment upon receipt of a written response.
